New Features in Contract History Inquiry

After receiving multiple requests, we have built the following new features into all selections in the Contract History Inquiry application.

- ★ While searching through pages of contracts, regardless of the selection option used, the ability to return to the PREVIOUS PAGE has been added. This option now displays at the bottom of each screen.
- ★ Once a contract has been selected and displayed, pressing the ENTER key when done now returns you to the last screen of contract summaries that displayed. The PF1 for NEXT PAGE or PF2 for PREVIOUS PAGE options are again available to continue the search.

For those customers that have the system option set that Invoice Number is not the same as the Contract Number, this selection allows you to find the Contract Detail by the Invoice Number.
